1/2

The Cala Pouf is designed to offer versatility in functionality. Its compact size makes it easy to move and place in various areas of a room. It serves as a comfortable footrest, an additional seating option, or even as a small side table when paired with a tray.

The pouf's cushioned top provides a soft and plush surface for relaxation. It invites individuals to kick back, put their feet up, or simply enjoy a moment of relaxation. The attention to comfort and ergonomic design ensures a pleasant seating experience.

Fabric Maintenance

Clean with mild soap using a sponge or cloth. Be gentle during the cleaning process; avoid aggressive scrubbing of the fabric. After cleaning, ensure you remove any excess soap.

For stubborn stains, use diluted household bleach. Act promptly to clean stains; the longer they linger, the more challenging they become to remove.

After cleaning, steam iron the fabric using only steam. Be cautious not to place the iron directly on the fabric, as it may cause damage.

Other Characteristics

 Adjustable legs

Teak Maintenance

We recommend treating the wood with sealer every three months, or more frequently in the case of hotel and catering establishments. To restore the teak to its original appearance, sand the entire surface and apply the sealer.

Marble Maintenance

Clean only with a soft cloth, warm water and pH neutral detergent. Do not use: acids, ammonia, abrasive powders, window cleaners and so on. Any substance with an acid pH will damage marble: lemon juice, wine, etc. Marble is treated with a waterproof sealant to protect it from damp and stains (as long as they are cleaned immediately); however, this sealant naturally wears off over time. We recommend treating the marble with sealant every three months, more frequently in the case of hotel and catering establishments.
