

Leather

**kettal**

## Description

---

Genuine cowhide used in high-wear areas. Leather is a high-quality material that brings elegance and durability to your furniture, providing a sophisticated option to enhance any indoor space. Available in two shades of brown.

## Maintenance

---

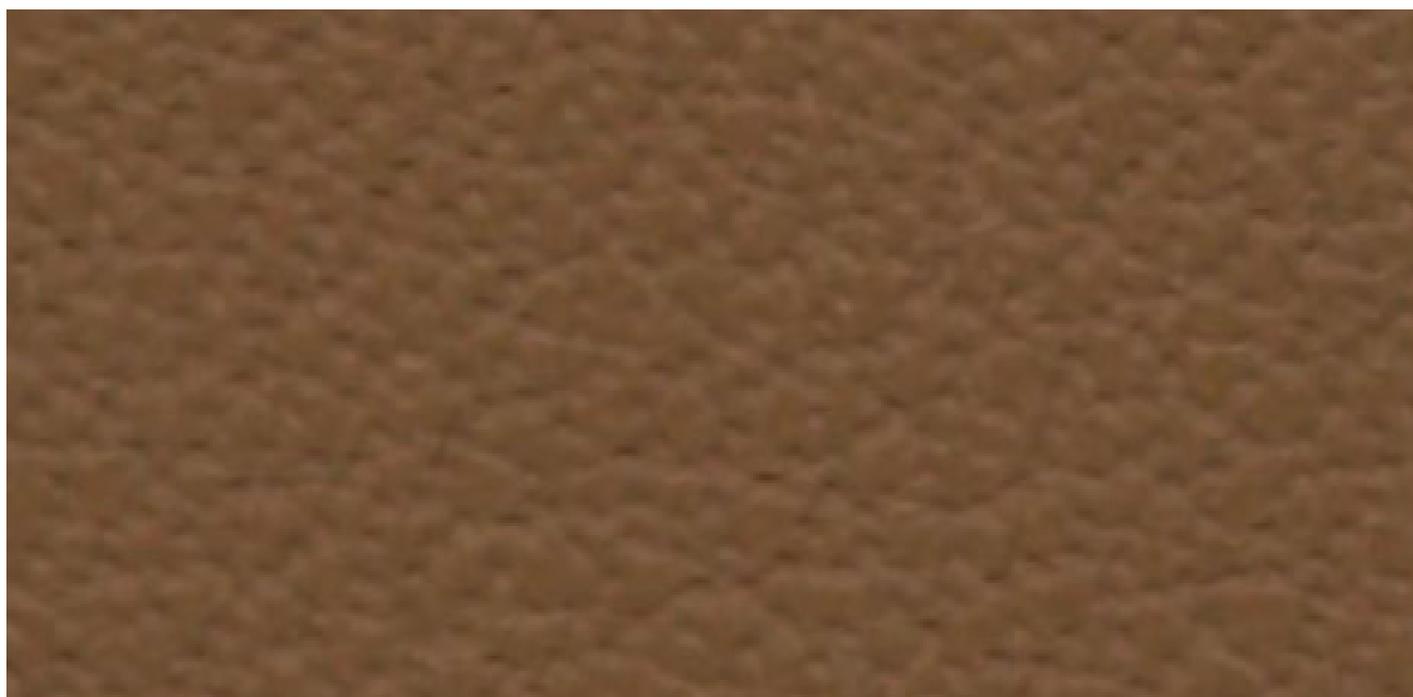

Leather has a stain-resistant finish and is easy to clean. One of its key features is its resistance to stains. Thanks to this and many other features, Kettal Leather requires no specific or costly maintenance. For everyday maintenance, clean with a soft cloth and warm water. To extend the life of Kettal Leather, we recommend using a neutral non-oily leather care product every six months. In case of stains, rub gently in circles with a damp cloth from the centre of the stain outwards. Dry the treated area with a cloth. Leather is a natural material, which means there may be slight variations in colour.

Suitable for indoor use only

Easily cleanable with lukewarm water and a cloth
